

Director's Profile

Rowshan Ara Rita, Chairman

Up growing market it is very much challenging to grave specially B2B or corporate market. It's always belong their highest fulfillment in work area. So, It is our goal to give up more smoothness to every corporate's service part.

In 17 years of profession work with some brand like Nokia, Microsoft & Samsung. Realized that no alternate but doing his/her work on time.

It is more or less depends on B2B that which product they are selecting from IT market actually and our target is to be done all effective on time service at any aspect.

So. Our values is "less sales more service"

Initially, we build a strong service team with expert IT personals.

As we are a beginning team should also try to prove ourselves best & hope also who had experienced being with us will be with us happily Insha-Allah.

Kazi Ekramul Goni, Managing Director

Xbit Technologies Ltd just born few months ago with the lay off another limited company. With the grace of Allah Xbit Technologies Ltd has overcome all the limitation which was really crucial for the company. In my long Journey in IT profession (24 years) have introduced many brand like Microlab, Liteon, Samsung, Fujitsu etc & established them in BD market. Through my carrier work in top most company in Bangladesh. Very shortly we will own few world famous brand in BD market & will be helpful to our valued customer. We are continue trying to improve our service better than before. We are ready to buildup digital Bangladesh.

"To be the **most trusted and reliable IT service partners** of organizations for their sustainability and growth."

"Our mission is to engage with clients and develop **strategic partnership** with organizations also to be a service provider."
